

VAN VLIET
DEMOLITION GROUP

INTRODUCTION

DEMOLITION - DISMANTLING - ASBESTOS REMOVAL

THE SPECIALIST IN INDUSTRIAL DEMOLITION AND DISMANTLING PROJECTS

ABOUT **VAN VLIET DEMOLITION**

Established over 85 years ago in Utrecht (The Netherlands) Van Vliet developed into one of the leading international operating specialist full-service demolition and asbestos removal contractors.

Offering safe and sustainable solutions for all aspects of the demolition discipline, Van Vliet have worked in close partnership with numerous multinational operators within the petrochemical, refining, chemical and associated sectors such as power generation and heavy industry.

Operating globally, Van Vliet brings a wealth of experience gained from projects successfully executed to date using in house resources and a highly motivated team of personnel.

Van Vliet has the proven capacity to decommission and demolish entire refineries, process plants, storage tank farms and terminals.

Van Vliet also has an excellent track record in the safe demolition of heavy plant items and equipment, steel structures, buildings, below grade structures, chimney stacks and even aeroplanes.

Successful projects have been undertaken in The Netherlands, the United Kingdom, Belgium, Germany, Greece, Cyprus, Belgium, France, Turkey, State of Qatar, Oman, Libya and Singapore.

Expertise in establishing, and managing, international business and project teams using in house resources.
